V 001

10.19

## Quality workmanship guaranteed.

Due to our rapid growth and thanks to our innovative, proactive service delivery approach, PSW offer specialist Commissioning, Pre-Commissioning, Shutdown, and Maintenance Services.

Our Services are designed for new build, existing plant, as-set shutdowns, and general maintenance projects.

The key objective of our service is to provide our customers with quality workmanship using structured procedures and a high level of competency in maintenance skills and practices. As a result, our experienced specialist team delivers a comprehensive solution to maximise equipment uptime and implement cost-effective, preventative maintenance and Condition Monitoring.

### Our service includes:

- PSW deliver a large pool of highly competent personnel in all disciplines
- Supply of Reliability Engineers and Project Teams
- Supply of CM Engineers (Covering all CM Techniques)
- Review of all process and engineering design documents - with a focus on operability and safety.
- Provision of guidelines and supervision of pre-commissioning and commissioning activities.
- Delivery of complete Handover packages with details relative to continuous improvement process and inventory.

### PSW can provide:

#### A single source for Project Management

We ensure consistency and cost effectiveness across all projects.

#### Improved Customer/ Contractor Interfacing

We reduce the number of parties to manage.

#### Cost-Effectiveness

Equipment is used across multiple projects to reduce costs of purchase, maintaining or hire.

#### Better Quality

Consistency in process and practice achieves better quality across projects.

Our previous track record shows that we can manage all your construction, commissioning, pre-commissioning or shutdown activities.

Our Customers trust us for all their maintenance, repair, calibration, procurement and warehousing needs; it makes sense that we also take care of their projects.

#### Value for Money

All our services under one single contract reducing administration costs.

#### Increased Productivity

Our team is more versatile and activity focused.

#### Safety Record Enhanced

More efficient management of a single smaller team with the familiarity of working together.
